Thursday, February 7, 2019 at 2:30pm

Winters Dining Hall, 001 Winters College

Members of the community are invited to attend the follow-up event to the inaugural APPRC-ASCP Forum of Ideas held last winter, which focused on program re-visioning and curriculum reform. This year's planning forum will pick up the main themes of enquiry generated at the first event to discuss (i) what are the promising new ideas on the horizon for post-secondary curriculum and teaching; and (ii) how can those ideas be moved from theory to practice at York University? Component I of the forum will consist of two panels providing guidance about institutional support and resources for program development. Component II is a keynote speaker on the topic of pinpointing trends, and identifying need & demand in the current Ontario post-secondary landscape.
